- Database
- MongoDB, MySQL
- Framework
- React, Node, Express, Angular

PROFILE

I am a passionate and self-motivated Software Engineering undergraduate currently in my third year, seeking an internship to apply and expand my technical knowledge. Eager to contribute to real-world projects, I thrive in collaborative environments and am committed to continuous learning and growth in the tech industry.

EDUCATION

BSc (Hons) in Information Technology Specialized in Software Engineering - 3.22 GPA

I am currently a 3rd year, 2nd semester at the Sri Lanka Institute of Information Technology (SLIIT)

2 nd Year	2024
Object Oriented Programming	A-
Software Engineering	A-
Computer Networks	B+
Operating Systems and System Administration	B+
Database Management Systems	B
Data Structures & Algorithms	B+
Mobile Application Development	B
IT Project	B
Probability & Statistics	B+
1 st Year	2023
Introduction to Programming	B
Mathematics for Computing	B
Communication Skills	B
Introduction to Computer Systems	B-
Software Process Modelling	A
Information Systems & Data Modelling	A-
Internet & Web Technologies	B
Object Oriented Concepts	B
English for Academic Purposes	B
GCE Advanced Level - Commerce Stream	2020
Got 2 A's & 1C for A/L's	
GCE Ordinary Level	2017
Got 7 A's & 2B's for O/L's	

WORKING EXPERIENCE

- Followed 6 months period of School leaver Internship in Account Opening Department at Sampath Bank PLC, Piliyandala 2022

CERTIFICATES

Web Design for Beginners	2025
Successfully Completed Course of Web Design for Beginners at centre for open & Distance Learning University of Moratuwa.	
Building Great Forms with HTML and CSS	2025
Successfully Completed Course of Building Great Forms In LinkedIn Learning	
General Conversational English	2023
Successfully Completed Course of General Conversational English at The English Bank Academy	

SKILLS

PERSONAL

As a passionate software engineering undergraduate, I bring strong problem-solving abilities, analytical thinking, and a deep commitment to teamwork. My leadership experience as the Deputy Head Prefect in school has strengthened my communication, organization, and decision-making skills, which I continue to apply in both academic and project environments.

INTERESTS

- web Development
- Full Stack Development
- Mobile Application Development
- UI Designing & Development
- Software Development

PROJECTS

Food Ordering & Delivery System – MERN Stack, Microservices

GitHub link – [E-Food Ordering and Delivery management System](#)

- A group project of scalable food ordering system built using microservice architecture, enabling interaction between customers, restaurants, and delivery agents. I developed the payment and notification services using Stripe, Twilio, and Gmail APIs.

Tech Stack: MongoDB, Express.js, React.js, Node.js, Docker, Stripe, Twilio, Nodemailer

Book & Stationary management System – MERN Stack

GitHub link – [Book & Stationary Management System](#)

- A full-featured eCommerce management system for a bookstore and stationery shop, built to streamline operations and improve customer experience. I implemented the tracking and delivery portal, along with admin-side shipping management and report generation features.

Tech Stack: MongoDB, Express.js, React.js, Node.js, REST APIs, JWT

Online Train Reservation Management System – Java

- [GitHub link – Train Reservation – Booking Seats System](#)

- Train reservation system designed using the MVC architecture to manage bookings and schedules efficiently. I developed the seat booking functionality, handling user input, CRUD operation, seat availability logic, and database integration

Tech Stack: Java, MySQL, MVC Architecture

Finance Tracker App – REST API

- [GitHub link – Finance Tracker BACKEND](#)

- A individual project using RESTful API for personal finance management, supporting transactions, bills, savings, goals, and budgeting.

Tech Stack: Node.js, Express.js, MongoDB, JWT, Jest, Postman

Online Banking System – REST API

- [GitHub link – Online Banking System](#)

- A basic online banking system built with PHP and MySQL for managing accounts and transactions. I implemented modules for bill payments and bank account management, enabling user-friendly financial operations.

Tech Stack: HTML, CSS, JavaScript, PHP, MySQL
