

NERANDA DILHARA

Phone: +94 76 032 3335 | Email: nerandadilhara@gmail.com | Software Engineering Undergraduate

PROFESSIONAL SUMMARY

Aspiring Software Engineer with a strong foundation in computer science, object-oriented programming (OOP), and agile methodologies (Agile, Scrum). Demonstrates proven ability in applying theory to real-world projects through hands-on experience gained from a 6-month internship at a leading software company. Passionate about innovation, cloud-native technologies, and system scalability. A proactive team player with excellent communication, problem-solving, and time management skills. Continuously exploring new technologies and committed to delivering impactful software solutions.

EDUCATION

Bachelor of Science (Honors) in Software Engineering

Sri Lanka Institute of Information Technology (SLIIT)

- **CGPA:** 3.76
- **Dean's List:**
 - Year 1 - Semester 1 & 2 – 2023
 - Year 2 - Semester 1 – 2024

G.C.E. Advanced Level Examination – Technology Stream - 2021

- **Island First** in Technology Stream (3A's)

G.C.E. Ordinary Level Examination - 2018

- 9 A's

Cisco Certified Network Associate (CCNA) – 200-301 - 2022

- Gained knowledge in networking fundamentals, routing, switching, wireless technologies, and network security.

INTERNSHIP EXPERIENCE

Intern – Full Stack Developer

JAAN Network (Pvt) Ltd, Colombo 03

(January 2025 – July 2025)

Key Contributions:

- Participated in the full SDLC of enterprise-grade systems using Agile/Scrum methodology.
- Worked on both backend and frontend modules for multi-sector software platforms.

Projects:

1. **ERP System for Apex Aura (Cosmetic Production Company)**
 - Developed modules for inventory, product lifecycle, production tracking, and supplier communication.
2. **Multimodal Transport & Logistics Platform**
 - Implemented features for freight booking, vehicle tracking, and warehouse updates.
3. **POS Systems (Retail, Trade, Pharmacy, etc.)**
 - Designed billing systems, barcode scanning, and receipt generation interfaces.
4. **Banking Operations Application**
 - Contributed to modules for customer onboarding, loan management, and transaction tracking.
5. **Human Resource Management System**
 - Developed components for payroll, employee data, document uploads, and automated PDF payslip generation.

Technologies Used:

Laravel, React.js, REST APIs, MySQL, Git, Jira, Postman

Skills Gained:

Agile collaboration, problem solving, time management, team communication, and system design.

PROJECTS (PERSONAL / ACADEMIC)

Vehicle and Fuel Management System

Java-based desktop application using MVC, Servlets, and SQL to manage vehicle records, fuel logs, and services.

Life Insurance Management System

PHP web platform integrating HTML/CSS/JavaScript and MySQL for managing policies, clients, and payments.

Boarding Places Management System

MERN stack application for listing and searching boarding places with real-time updates and secure storage.

Laravel Student Management System

Student data management CRUD system using Laravel, Blade, and MySQL.

eFoods – Online Food Ordering & Delivery Management System

A cloud-native, microservice-based food delivery platform with modular services for admin, restaurants, riders, and customers.

Built With:

- Microservices Architecture
- MERN Stack (MongoDB, Express.js, React.js, Node.js)
- Docker & Kubernetes for containerization and orchestration
- Real-time Email & SMS Notification Services
- API Gateway + Service Discovery

Key Features:

- Scalable Deployment via Kubernetes
- Restaurant/Menu Management
- Role-based Access System
- Notification and Payment Gateways
- Demo video available showcasing system flow and architecture

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, Kotlin, PHP, C++, SQL

Frameworks & Libraries: React.js, Node.js, Express.js, Laravel, TensorFlow, Keras

Web Development: HTML, CSS, Bootstrap, Tailwind CSS, Material UI, MERN stack

Cloud & DevOps: Docker, Kubernetes, Microservices, API Gateway

Database: MySQL, MongoDB, Relational Schema Design, Oracle

UI/UX & Design Tools: Figma, Adobe Illustrator, Photoshop, Canva

Mobile Development: Android Studio (Kotlin)

Data Analysis & ML: Matplotlib, R Programming

Tools & Platforms: Git, VS Code, Jira, Trello, Postman, Insomnia

Practices & Concepts: Agile/Scrum, MVC Architecture, REST API Design, Design Patterns, CI/CD Awareness

ADDITIONAL EXPERIENCE

YouTube Content Creator

- Produces technical and educational content on OOP, Java, and Statistics.
- Simplifies complex software concepts using analogies, real-life examples, and visuals to teach aspiring developers.
